

## Toilet Paper Tube Marble Run

For this project you will need:

- toilet paper and/or paper towel tubes
  - markers, crayons, stickers, yarn, fabric, etc. (anything you have at home to put some pizzazz on your tubes)
  - tape
  - marble or other small ball
1. Collect several toilet paper and/or paper towel tubes (we know you've got some!).
  2. Decorate your tubes however you like – you're the artist! Each tube can be different or you could design them in a pattern.
  3. Use tape to attach the tubes to a wall or window (make sure you have an adult's permission). Attach the tubes end to end so they form a tunnel.
  4. When your marble run is up, try it out! Place a marble in the top of the tunnel and watch it travel through to the end.
  5. Experiment with your marble run design. Try adding curves and angles or dramatic flair, like a monster or pipe cleaner bridge.
