

Felt Pennant

For this project you will need:

- felt – all different colors (you could also use paper)
 - scissors
 - glue
 - string
 - hook or clothespins
1. Create a name for your home school during distance/virtual learning or choose one of your favorite teams to create a pennant for. A pennant is a banner that shows your school pride!
 2. Cut a pennant shape out of a piece of felt. Your pennant can be any shape you like!
 3. Use a marker to write out the name of your home school or favorite team on another piece of felt, and cut out the letters with scissors. Hint: Use block letters – they are easier to cut!
 4. Glue the letters on to your pennant.
 5. Use other felt pieces to cut out a mascot or other décor to add to your pennant. Let your creativity run wild!
 6. Glue some string to the back of your pennant on two corners. Use a little piece of felt to help the string stay in place.
 7. Let the glue dry, then hang your pennant up! You can hang your pennant on a hook or attach it to something with clothespins. It could even go up on your refrigerator with magnets!
