

Monster Eye

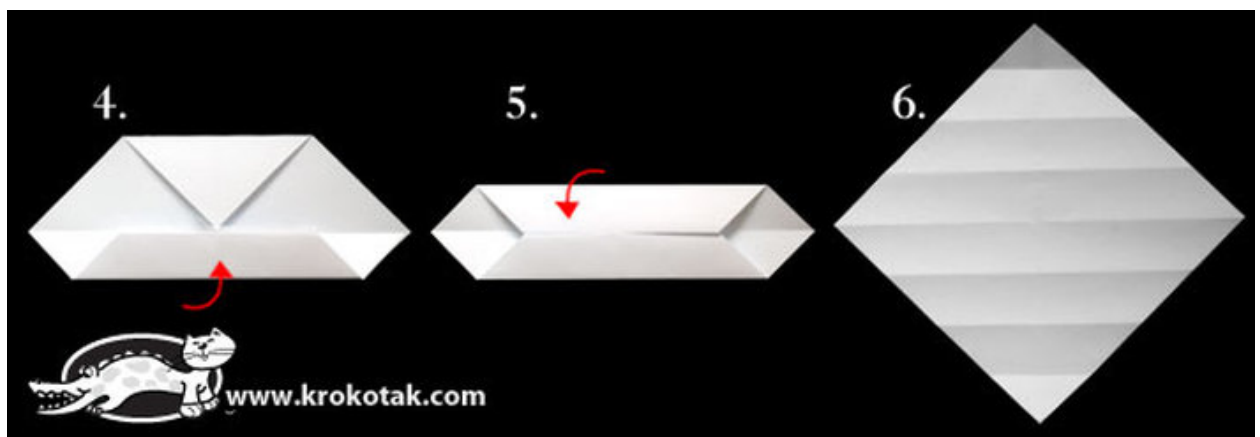

For this project you will need:

- square piece of paper
- objects to color with – markers, colored pencils, crayons, etc.

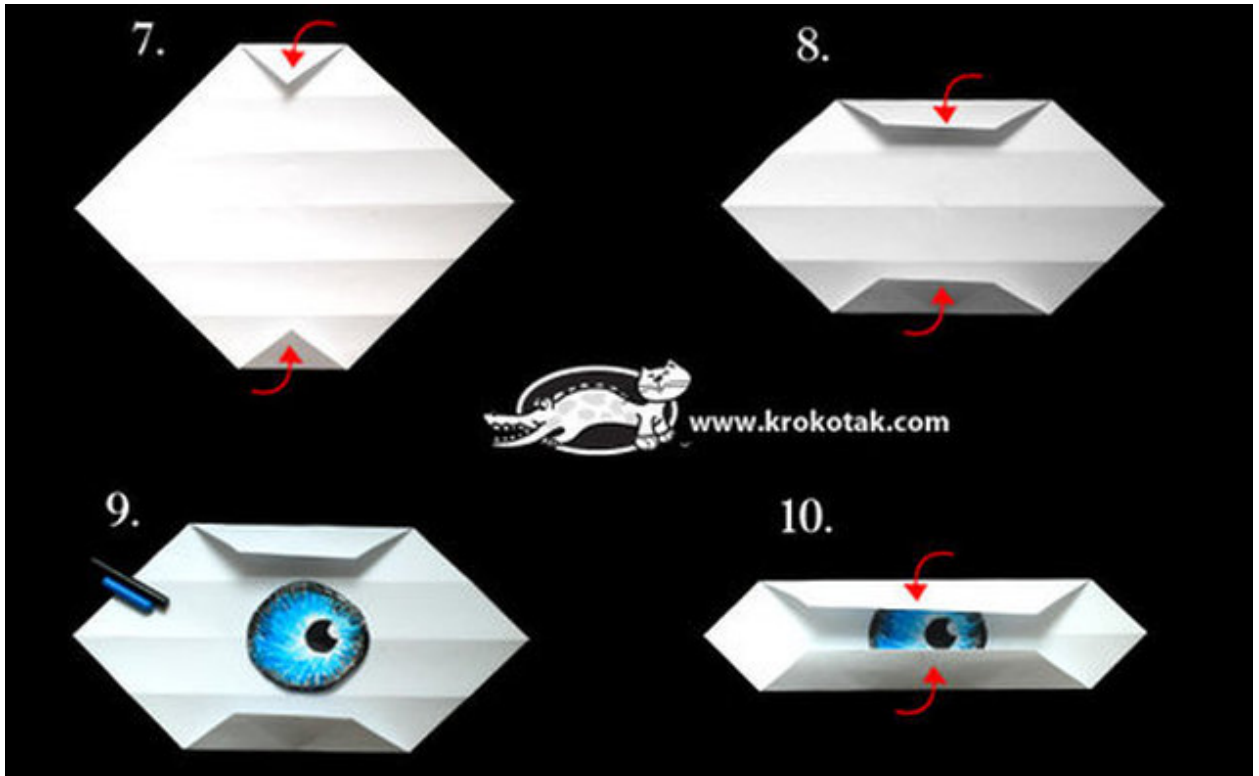

1. Begin with a square piece of paper. Follow Steps 1-3 in the picture below.

2. Now follow Steps 4-6. Step 6 is opening up all the folds.

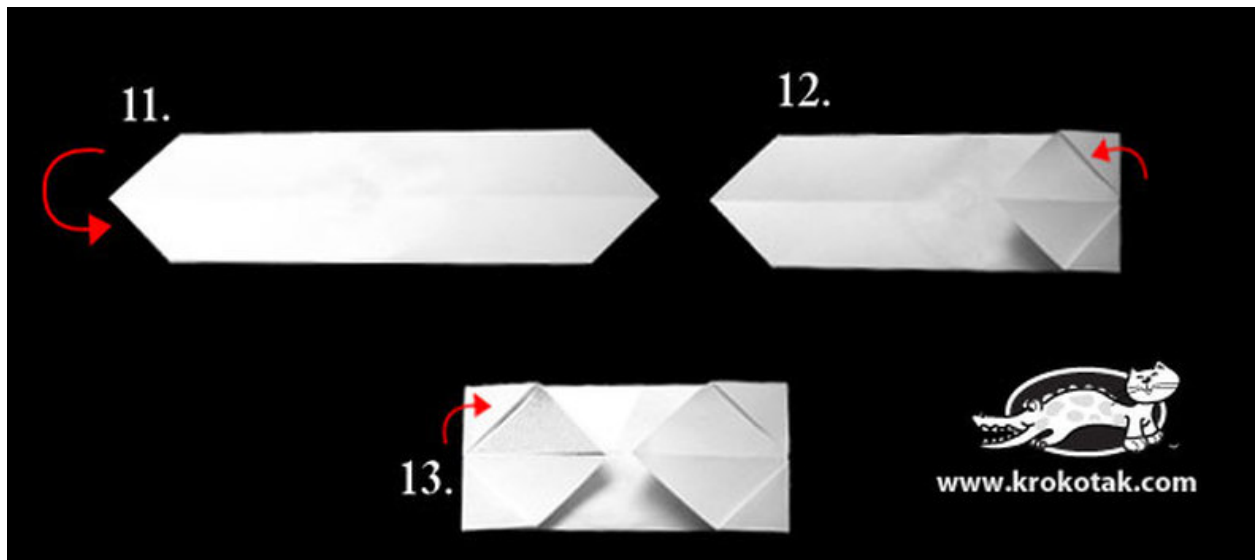

3. Follow steps 7-10 in the picture below. In Step 9, you will draw the eyeball. Notice how the eyeball is placed on the paper, and create your monster eye as creepy or as silly as you like!

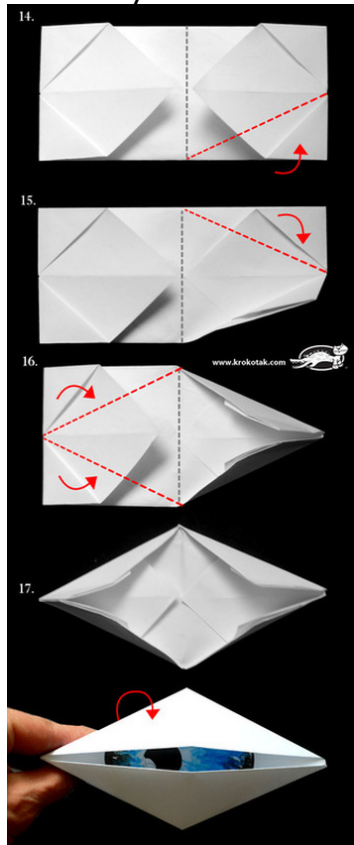

4. Color the monster's eyelids. Get funky with colors, texture, and maybe add some eyelashes!

5. Continue with Steps 11-13. Step 11 is just turning over the paper after Step 10 so you can see and fold from the back.

6. Steps 14-17 are difficult, so ask an adult, sibling, or friend for help if you need to. The dotted line is an imaginary line down the vertical axis of the paper. You don't need to fold there or draw it on, just be aware of it as you fold!
