

## Paint Smoosh

For this project you will need:

- 2 pieces of paper (any size)
  - paint (any kind)
  - pen, pencil, markers, etc. (optional)
1. Squeeze paint onto one piece of paper in any design and color scheme you like.
  2. Place the second piece of paper on top of the painted paper.
  3. Press and rub the two pieces together.
  4. Remove the top piece and admire your handy work!
  5. Will you add more details in pen or pencil after you've made your print? Do you see any recognizable objects or patterns in your print or is it purely abstract?

This project was inspired by @imakestagram on Instagram.
